

ICO 2015 FULL PROGRAM

Sunday, November 15th

18:00 Welcome cocktail

Monday, November 16th

08:00 Registration

08:30 Opening

09:00 PLENARY TALK "The ecoregions of the Neotropics and their dragonfly fauna, as an example Peru"

Joachim Hoffmann

Session 1

Neotropics Chair: Joachim Hoffman

09:45 "We salute the renaissance! A brief history and the current status of the Brazilian odonatology"
Ângelo Pinto

10:00 **Coffee break**

10:30 "State of knowledge of the Odonata of Southern South America: Argentina, Chile and Uruguay"
Federico Lozano

10:45 "The Odonata fauna of Bolivia"
Ken Tennessen

11:00 "Quest for Protallagma and Oxyallagma (Zygoptera: Coenagrionidae) in Peru"
Holger Hunger

11:15 "Composition and diversity of dragonflies and damselflies from Meta department (Colombia)"
Fredy Palacino Rodríguez, Alexander Sabogal González, Catalina Amaya Perilla & Cornelio Bota Sierra

11:30 "Current status of the study of Odonata biodiversity in Central and South America"
Jenilee Montes Fontalvo

11:45 "Two busy weeks in Atlantic Forest of Brazil"
Erland Refling Nielsen

12:00 Questions and discussion

12:15 **Lunch**

ICO 2015 FULL PROGRAM

Session 2

Corduliidae Chair: Ângelo Pinto

13:30 “Gone with the wind updated – the Pacific story of *Hemicordulia*”

Milen Marinov

13:45 “Toward a synopsis of Central and South American corduliids: taxonomic status of the genera (Anisoptera: Corduliidae s.l.)”

Ângelo Pinto

14:00 “Unraveling the position of *Lauromacromia* within Corduliidae s.s. using molecular and morphological data”

Jessica Ware & Ângelo Pinto

14:15 Questions and discussion

Session 3

Phylogeny Chair: Jessica Ware

14:25 “The first insight into comparative transcriptome analysis of the Neotropical damselfly genus *Megaloprepus*”

Wiebke Feindt, Sara Oppenheim, Rob De Salle & Heike Hadrys

14:40 “Phylogenetic exploration of *Mesagrion* - *Heteropodagrion* complex: a molecular approach”

León Andrés Pérez Gutiérrez

14:55 “Evolution at Northern limits: Understanding the Treeline Emerald (*Somatochlora sahlbergi*)”

Manpreet Kohli

15:10 “A molecular phylogeny and classification of Anisoptera”

Frank Carle, Karl Kjer & Michael May

15:25 Questions and discussion

Coffe break

16:00 Plenary talk: “New perspectives on some aspects of phylogeny in the Anisoptera”

Michael L. May

Session 4

Miscellanea Part 1 Chair: Tze-wai Tam

16:45 “Effects of two systemic insecticides, imidacloprid and fipronil, on *Sympetrum* species inhabiting Japanese rice paddy fields”

Hiroshi Jinguji & Tetsuyuki Ueda

17:00 “Morphological adaptations of dragonflies (Odonata: Libellulidae) to migration”

Catalina María Suárez Tovar & Carlos E. Sarmiento

ICO 2015 FULL PROGRAM

17:15	"Fossil Odonata of Argentina through body fossils and endophytic ovipositions" <i>Julián Petrulevičius & M. Eugenia Romero Lebrón</i>
17:30	"The seven "Oddities" of the Pacific Odonata Biogeography" <i>Milen Marinov</i>
Tuesday, November 17th	
08:00	Plenary talk: "Flying colours: will dragonflies be the first insect order to break the 'vertebrate barrier'?" <i>Klaas Douwe Dijkstra</i>
Session 5	
	Genomics Chair: <i>M. Olalla Lorenzo Carballa</i>
08:45	"Odonata Genomics: why it matters" <i>Seth Bybee</i>
09:10	"Preliminary results from the 1KITE Transodonata subproject" <i>Jessica Ware, Alexander Blanke, Caro Greve, Karl Ryuchiro Machida, Bernhard Misof & Oliver Niehuis</i>
09:35	"Ecology and evolutionary dynamics in polymorphic damselflies: how can genomics and transcriptomics increase our understanding of evolutionary processes?" <i>Erik Svensson</i>
10:00	Coffee break
10:30	"Transcriptomics of mating harassment in an polymorphic damselfly" <i>Katie Duryea, Yuma Takahasi, Chris Wheat & Erik Svensson</i>
10:45	"Using Pool-seq to examine genetic variation affecting male fitness in <i>Libellula pulchella</i> " <i>Ruud Schilder</i>
11:00	"Population genomics of sexual and parthenogenetic <i>Ischnura hastata</i> " <i>M. Olalla Lorenzo Carballa & Phillip C. Watts</i>
11:15	Questions and discussion
Session 4	
	Miscellanea Part 2 Chair: <i>Tze-wai Tam</i>
11:30	"The German atlas of dragonflies" <i>Klaus-Jürgen Conze</i>
11:45	"Current status of the dragonflies in Hong Kong ten years after the territory wide survey in 2002-2004" <i>Tze-Wai Tam</i>

ICO 2015 FULL PROGRAM

12:00

“The status of *Rhionaeschna galapagoensis* (Currie, 1901) with notes on its biology (Odonata: Aeshnidae)”

A. Cordero Rivera, A.C. Encalada, R.A. Sánchez Guillén, S. Santolamazza Carbone & N. von Ellenrieder

12:15

Lunch

Session 6

Red Listing Chair: **Frank Suhling**

13:30

“First red list assessment for Odonata in Colombia, with some study cases”

Cornelio A. Bota Sierra, Bill Mauffray, Fredy Palacino, Ken Tennessen & Edwin Ussa

13:45

“Applying the criteria of the IUCN Red List for assessing Odonata: interpretations and their consequences”

Frank Suhling

14:15

Red Listing Workshop (Organizers: Frank Suhling & Michael J. Samways)

15:30

Coffee break

16:00

“The Red List of African Dragonflies - backgrounds and perspectives”

Klaas Douwe Dijkstra

16:15

Plenary talk: “Conservation of narrow range endemics: what are the ingredients of success”

Michael J. Samways

17:00

SOL Meeting

Wednesday, November 18th

08:00

Plenary Talk: “Insights into etho-diversity: a study of two mirabilis *Hemiphlebia* and *Pseudolestes*”

Adolfo Cordero Rivera

Session 7

Ethology Chair: **Georg Rueppell**

08:45

“Differences in flight between dragonflies and damselflies”

Georg Rüppell

09:15

“High-frequent threatening flights of *Calopteryx* females and males”

Dagmar Hilfert Rüppell & Georg Rüppell

ICO 2015 FULL PROGRAM

09:30	"Visual signals influence the outcome of territorial fights in the tiger damselfly <i>Tigriagrion aurantinigrum</i> Calvert 1909 (Zygoptera: Coenagrionidae)" <i>Diogo Silva Vilela, Tháina A. A. Tosta, Rodrigo R. Rodrigues, Kleber Del Claro & Rhainer Guillermo Ferreira</i>
09:45	"Physiological color change in response to mating-associated behaviors in <i>Argia apicalis</i> (Odonata: Coenagrionidae)" <i>Amanda Whispell & Michael L. May</i>
10:00	Coffee break
10:30	"The remarkable wings and behavior of the Morpho-dragonfly <i>Zenithoptera lanei</i> (Odonata: Libellulidae)" <i>Rhainer Guillermo Ferreira, Pitágoras C. Bispo, Esther Appel, Alexander Kovalev & Stanislav N. Gorb</i>
10:45	"Identified neurons in the dragonfly ventral nerve cord signal the approach of flying prey" <i>Andrea Worthington & Robert Olberg</i>
11:00	"Individual neurons in the dragonfly ventral nerve cord control wing, head, leg, and mouth movement" <i>Robert Olberg & Andrea Worthington</i>
11:15	Questions and discussion
11:25	"Details of dragonfly behaviour from high speed photography" <i>Georg Ruppell</i>
12:15	Lunch
<hr/>	
	Session 8
	Ecology Chair: Andreas Martens
13:30	"Habitat selection of dragonflies in terms of vegetation and aquatic environments in an Atlantic Forest conservation unit, RS, Brazil" <i>Samuel Renner, Göran Sahlén, Eduardo Périco</i>
13:45	"Experiments about drought resistance of dragonfly eggs" <i>Franz-Josef Schiel</i>
14:00	"Urban Dragons - Do dragonflies benefit from urbanisation?" <i>Diana Goertzen, Göran Sahlén & Frank Suhling</i>
14:15	Questions and discussion

ICO 2015 FULL PROGRAM

Session 9

Conservation Chair: John P. Simaika

- 14:25** “Role of ponds in maintaining connectivity between *Ischnura elegans* populations along a Blueway in Normandy (France)”
Mickaël Le Gall, Audrey Chaput-Bardy & Aurélie Huste
- 14:40** “Distribution, habitat requirements and conservation of two rare dragonflies in southeast Texas and western Louisiana, United States”
John Abbott & Kendra Abbott
- 14:55** “Odonata in the European Habitats Directive”
Ulf Bjelke
- 15:10** “Nonlinear responses in damselfly community along a gradient of habitat loss in a savannic landscape”
Marciel Elio Rodrigues, Fabio De Oliveira Roque, Diogo Caribé de Sousa, João Carlos Pen & Paulo De Marco Junior
- 15:30** **Coffee break**
- 16:00** “Predicted response of dragonflies to climate change along an elevation gradient”
John P. Simaika
- 16:15** Questions and discussion
- 16:30** Plenary Talk: “Dragonfly biodiversity in Swedish forest lakes: current interpretations of patterns observed”
Göran Sahlén
- 17:15** WDA Board Meeting

Thursday, November 19th

- 08:00** Mid-Congress Tour

Friday, November 20th

- 08:00** Plenary Talk: “Dragonfly distribution in times of global warming: presumptions, patterns, processes”
Frank Suhling

Session 10

Evolution Chair: Ola Fincke

- 08:45** “Evolutionary history of *Coenagrion mercuriale* clade: the importance of multilocus genetic approaches to detect cryptic diversity, introgression and selective sweeps”
Sónia Ferreira, David J. Thompson, Paulo Célio Alves, José Carlos Brito & Phillip C. Watts

ICO 2015 FULL PROGRAM

- 09:00** “Sexual isolation in *Argia* damselflies: insights from sexual responses, genetic distance and distribution ranges”
Angela Nava Bolaños, Rosa A. Sánchez Guillén, Roberto Munguía Steyer & Alex Córdoba Aguilar
- 09:15** “Fertile Hybridization in the Odonate and evolution within the order”
Nick Donnelly
- 09:30** “Trade-offs in female signal apparentness to males offer alternative anti-harassment strategies for color polymorphic females”
Ola Fincke
- 09:45** “Ontogenetic color change and intersexual communication in the Common Bluetail damselfly (*Ischnura elegans*)”
B. Willink, M.C. Duryea & E.I. Svensson
- 10:00** **Coffee break**
- 10:30** “Is the American Rubyspot damselfly a species complex? Unraveling the evolutionary history of *Hetaerina americana* (Odonata)”
Yesenia Margarita Vega Sánchez, Luis Felipe Mendoza Cuenca & Antonio Rodríguez González
- 10:45** “Founder effect and signal of adaptation in the most widespread dragonfly, *Pantala flavescens* Fabricius (Odonata: Libellulidae)”
Ingrid E. Alvial, David Véliz, Irma Vila & Héctor Vargas
- 11:00** “Body Size Evolution in Dragonflies and Damselflies: comparing micro- and macro- evolution”
John Waller
- 11:15** “*Trithemis stictica* (Odonata: Libellulidae) - lost in the desert mountains?”
Joachim Falk, Frank Suhling & Kamilla Koch
- 11:30** Questions and discussion
-
- Session 11**
- Larvae Chair: Richard Rowe
- 11:40** “Advances on the larval taxonomy of the genus *Epigomphus* Hagen, 1854 (Anisoptera: Gomphidae)”
Rodolfo Novelo Gutiérrez, Alonso Ramírez & Débora Delgado
- 11:55** “Cordulegastridae – large dragons of small streams”
Klaus Guido Leipelt

ICO 2015 FULL PROGRAM

12:15

Lunch

13:30

"Exploring the vision of larval odonates"

Camilla R. Sharkey, Nicholas W. Roberts, Julian C. Partridge & Seth M. Bybee

13:45

"Effects of zebra mussel colonization on emergence of the dragonfly, *Macromia illinoiensis*, on a northern lake in the US"

Ola Fincke

14:00

"Unflexible versus flexible: a comparison of the pre and post eyespot development in Libellulidae (Odonata)"

Lisa Hesse, Joachim Falk & Kamilla Koch

14:15

"Estivation of larvae - a rare phenomenon in bionomy of the *Cordulegaster* species?"

Otakar Holuša & Kateřina Holušová

14:30

"High proportion of broken and deformed procts and lateral spines in larval *Boyeria irene* (Odonata: Aeshnidae)"

Andreas Martens & Hansruedi Wildermuth

14:45

Questions and discussion

14:55

Plenary talk: "Development in the study of Mexican odonatology. From larval to adult stage"

Enrique González Soriano & Rodolfo Novelo Gutiérrez

15:40

ICO2015 awards

Closing and farewell words

19:30

ICO2015 farewell dinner
